PROFESSIONAL SUMMARY

Bachelor of Pharmacy graduate with comprehensive training in Pharmacovigilance, Drug Safety, and Clinical Research. Skilled in Individual Case Safety Report (ICSR) processing, MedDRA coding, adverse event (AE/SAE) reporting, case triage, narrative writing, CIOMS, SUSAR identification, and pharmacovigilance documentation through structured training. Strong understanding of ICH-GVP guidelines, regulatory compliance, patient safety, and pharmacovigilance workflows. Proficient in Microsoft Excel, Power BI, and scientific documentation with excellent analytical, communication, and attention-to-detail skills. Seeking to contribute as a Pharmacovigilance or Drug Safety Associate in a global CRO or pharmaceutical organization.

EXPERIENCE

The Pharma Daily

JULY 2025 - OCTOBER 2025

Pharmacovigilance Practicum (Remote)

- Processed and quality checked 50+ ICSR cases including serious and non-serious reports.
- Conducted MedDRA coding (LLT/PT) for adverse event (AE).
- Regulatory reporting timeline (7, 15, 30 or 90 days reporting).
- Worked with CRFs, eCRFs, and Electronic Data Capture (EDC) systems.

NRS Medical College & Hospital

December 2025 - April 2026

Hospital Pharmacy Trainee (On-site)

- Reviewed prescriptions and assisted in accurate medication dispensing following Good Pharmacy Practice (GPP).
- Provided patient counselling and maintained medication documentation.
